

VIENNA POLICE HIGHLIGHTS

September 11, 2015

The following summary contains various incidents of general interest as well as vehicular crashes handled by the Town of Vienna, Virginia Police Department from September 04, 2015 – September 10, 2015. Readers are reminded that an “arrest” is based upon probable cause and does not always mean that someone was physically taken into custody. Furthermore, it does not mean that an individual is automatically guilty of a crime. Judicial outcomes and post-arrest proceedings can be researched through the appropriate court’s website.

(VIENNA POLICE HIGHLIGHTS is not meant to be a listing of every incident or call handled by the Vienna Police, but merely a more substantive summary of several incidents, which may be of interest to the community. Some reports may be outside the date parameters due to extended investigations or other circumstances. Some cases are not included at all due to ongoing investigations. Town of Vienna, Virginia Police Department Media Information Release

Vienna Police Department to Participate in 10th D.E.A. Prescription Drug Take Back Initiative

Saturday, September 26th, 2015 from 10:00 a.m. to 2:00 p.m.

In conjunction with the United States Drug Enforcement Administration (D.E.A.) and state and local law enforcement agencies, the Vienna Police Department will again participate in a one-day initiative to remove potentially dangerous controlled substances from area homes.

On September 26th, 2015, between the hours of 10:00 a.m. and 2:00 p.m., the Vienna Police Department will have a collection site for old, expired, unused, or unwanted medications. Prescription medications, controlled or non-controlled substances, and over the counter drugs may be turned in anonymously at the collection point inside the Vienna Police Department located at 215 Center Street, South, Vienna, Virginia 22180.

Participants may dispose of medication in its original container or by removing it and disposing of it directly in to the collection box. If an original container is used the individual should consider removing any identifying information from the prescription label.

Liquid products should remain sealed in their original container to prevent leakage.

Intravenous solutions, injectables, and syringes will not be accepted due to associated hazards.

Commercial businesses, pharmacies or other medical facilities may not use this as a means to discard expired medications or medical waste.
